

LLOYDS BANK

BI DATA ANALYST

Lloyds Bank, locatie Amsterdam

Lloyds Bank GmbH is onderdeel van Lloyds Banking Group, de grootste bankengroep van het Verenigd Koninkrijk. De Nederlandse vestiging, met ruim 160 medewerkers, is anders dan andere Nederlandse banken. Dat merk je aan onze eigenzinnige, gedurfde visie op de markt. Aan onze innovatieve producten en diensten. En natuurlijk aan de korte lijnen voor onze klanten. Lloyds Bank doet jaarlijks mee aan de Great Place To Work survey, waarbij we een plek op de lijst van 'Best Workplaces' verdienen!

Voor de afdeling IT Netherlands, zijn we op zoek naar een **Business Intelligence Data Analyst**

Gezien het internationale karakter van de functie hebben wij de functieomschrijving in het Engels opgesteld.

THE ROLE

The Business Intelligence (BI) Data Engineer is part of the BI Team and reports to the Team Lead BI.

As Data Engineer you design, develops and implements BI solutions such as KPI's and management reports, ad-hoc reports and analysis systems for use at all levels (Group, Business Unit, Operations) within our organisation.

In your role as BI Data Analyst you understand, analyse and communicate data requirements, liaising with users, business analysts and other developers to ensure adherence to development standards and processes within Lloyds Bank GmbH. You have knowledge of the banking industry reporting standards and contribute on that basis to the Data Warehouse report development through thorough analysis and advanced understanding of data warehousing techniques including the ETL process and dimensional modelling (Kimball). You close the gap between business questions, BI concepts, techniques and tools used to improve management direction of the organisation. You are able to translate, develop and professionalise the vision and strategy of data warehousing within BI team further. You independently translate a strategy in clear actions and organised projects from scratch based on business requirements, design and documentation.

You have advanced knowledge of financial products. Especially Mortgages as this is considered a complex product, or is willing to acquire such knowledge. As a core member of the BI agile team, deliver a positive contribution to all elements of the development, test and maintenance cycle of BI solutions.

KEY ACCOUNTABILITIES

- Drive efficient and practical change management on processes, assessing their impact, and assure they land successfully within the team
- Explain technical challenges to business users and create workable solutions together with business stakeholders
- Follow up on incidents, including root cause analysis, formulation of tactical/structural solutions and communication to both clients and management
- Define BI Management Reports for Credit Risk, Finance, Collections and Recoveries, Marketing and Sales, Operations, Management, Business Risk and other departments as prioritised on the BI Product backlog
- Capture business requirements and translate into data requirements
- Acquire and maintain knowledge of business processes for Mortgages and other financial business processes as required
- Maintain relevant documentation such as data flows within core documentation repository

- Continuous collaboration with team and management to increase business understanding
- Communicate and align suggested solutions and (possible) implemented changes with related stakeholders
- Keep yourself up-to-date with Mandatory Training to operate within Lloyds Banking Group standards and keep knowledge of BI field.

SKILLS & CAPABILITIES

- Experienced in SSRS, SSIS, T-SQL based on MsSql Server versions 2014 and higher;
- Excellent technical and analytical skills with regards to design goals for modelling OLTP and dimension modelling for OLAP;
- Experienced in creating and reviewing ETL design and mapping specifications documents;
- HBO/WO (preferably with a focus on Computer Science, Statistics, Mathematics);
- 3 year experience in a related field;
- Excellent communication skills in English and Dutch (verbal and writing);
- Strong customer focus.

WE OFFER

A full-time role (40 hours) with a salary in line with the market and excellent secondary employee benefits. Do you recognize yourself? Then we would like to meet you digitally! Send your CV and motivation letter in English to recruitment@lloydsbank.nl
