

Business Analyst (M/V)

Lloyds Bank, locatie Amsterdam

Lloyds Bank is onderdeel van Lloyds Banking Group, de grootste bankengroep van het Verenigd Koninkrijk. De Nederlandse vestiging, met ruim 110 medewerkers, is anders dan andere Nederlandse banken. Dat merk je aan onze eigenzinnige, gedurfde visie op de markt. Aan onze innovatieve producten en diensten. En natuurlijk aan de korte lijnen voor onze klanten. Lloyds Bank doet jaarlijks mee aan de Great Place To Work survey, waarbij we een plek op de lijst van 'Best Workplaces' verdienen!

Voor de afdeling Change, zijn we op zoek naar een Business Analyst. Gezien het internationale karakter van de organisatie hebben wij de functie omschrijving in het Engels opgesteld.

POSITION

This role is within the Change Department of Lloyds Bank in The Netherlands.

Reporting to the Head of Products & Marketing/Change, this individual manages the scope, requirements analysis and business solution design for a small project or a component of a large project or workstream component (typically Silver CAT status). Typical business analysis activity includes planning, eliciting, analysing, defining, communicating and validating requirements for changes to structures, business operations and processes, product and service offerings, policies and information systems.

KEY RESPONSIBILITIES

- Requirements Elicitation: Supports engagement with the business (e.g., through meetings and workshops) to understand and document business needs. Addresses ad hoc queries and emerging issues, with appropriate oversight.
- Requirements Development: Supports facilitation of business need workshops to analyse, define and prioritise requirements, validating outcomes with stakeholders to ensure understanding.
- Requirements Management: Assists with the production of business requirements catalogue and contributes to ongoing management of the requirements traceability matrix.
- Solution Assessment & Validation: Supports development and validation of solutions, assists with evaluating requirements to ensure alignment with as-is and to-be business models, prepares analysis, consolidates solution recommendations, colleague and customer impact and costs. Assists in the development and delivery of training and communications plans to support implementation.
- Consultancy Advice & Domain Knowledge: Develops a good awareness of individual business/ product areas analysing and documenting requirements using agreed methods, tools and quality standards to support ad hoc queries.
- Stakeholder Management: Develops and maintains effective working relations with appropriate colleagues in a business area, proactively answering queries on requirements and following up actions with stakeholders.
- Risk: Ensures timely and accurate delivery of all assigned business analysis project deliverables, identifying design risks and taking appropriate steps to escalate/mitigate

KEY COMPETENCIES

- > 2 years' experience in the Dutch Mortgage Market;
- Bachelor Degree;
- Self-motivated and able to take the initiative;
- Experience in Business Analyses and Agile/Scrum is a must
- Collaborative way of working with the ability to challenge effectively;
